

RE-ACT

Self-reflection Tools for Smart
Universities Acting Regionally

IGNITION EVENT FOR HIGHER EDUCATION INSTITUTIONS (HEI)

The RE-ACT project aims at **exploiting the potential of existing self-reflection tools, particularly HEInnovate, for the design and implementation of RIS3** (Research and Innovation Strategies for Smart Specialisation). HEInnovate for RIS3 will support Higher Education Institutions (HEIs) to rethink and reposition their strategies, structures and actions through a holistic approach to innovation and entrepreneurship, regionally embedded and supported by collaborative links among key actors of the quadruple helix.

The Ignition event for Higher Education Institutions aims at raising awareness of the project concept, the planned activities and the expected outcomes, presenting both its processes and benefits. Besides, the *Course for HEIs: Enhancing HEI's participation in regional smart specialisation strategies using self-assessment*, offered by RE-ACT, will be presented. This course will offer **conceptual and methodological ideas for going through the process of self-assessment**.

Would you like HEI to be more engaged in regional innovation strategies? This event is for you!
