

## RE-ACT Framework and White Paper

*The RE-ACT Framework consists of a step-by-step methodology for the replication of the RE-ACT approach and effective use of the results produced. As a complement and follow-up to the Framework, the White Paper includes recommendations related to regional collaboration gathered from participants' experiences and lessons learned from the project's activities.*

### RE-ACT Framework

The picture illustrates the steps and components of the RE-ACT Framework, developed after more than 2 years of activities implemented with Higher Education Institutions (HEIs) and other actors of the quadruple helix in the five regions involved in RE-ACT. Check the detailed RE-ACT Framework on the [project website](#) and get inspired to implement the Framework in your region.

### White Paper with policy recommendations

- The White Paper presents policy recommendations based on the results of the numerous stakeholder engagement and participatory activities of the RE-ACT process and framework. The recommendations mainly refer to the role of HEIs in RIS3 and in the Quadruple Helix; they are organized according to HEIs main missions: research, education, outreach.

Access it [here](#).

**RE-ACT – Self-reflection tools for smart universities acting regionally**, aims at supporting HEIs to rethink and reposition their strategies, structures and actions through a holistic approach to innovation and entrepreneurship, regionally embedded and supported by collaborative links among key actors of the quadruple helix.
